EDUCATION

University of Wisconsin – Eau Claire

Expected May 2027

Bachelor of Science in Computer Science | GPA: 3.93 | Scott Seawell Memorial Scholarship Recipient

EXPERIENCE

Software Engineering Intern | React Native, TypeScript, Expo, Supabase, PostgreSQL

Mar 2026 – Present

Susty Inc. | Hudson, WI

- Architected Susty School's daily quiz feature end-to-end, designing the PostgreSQL/Supabase schema and building the React Native UI to support user streaks, badges, and level progression.
- Engineered backend logic using RPCs, advisory locks, and per-user timezone handling to enforce daily point caps and prevent duplicate answers during concurrent writes.
- Shipped 1:1 and group messaging with Supabase Realtime, including conversation lifecycle, unread counts, image messages, debounced push notifications, and per-user rate limits.
- Built a barcode-scanning flow backed by brand-alias resolution RPCs, with both systems covered by pgTAP database tests.
- Authored 31 PostgreSQL migrations across RLS, ad tracking, and tested business logic; built GitHub Actions CI/CD for EAS releases and merged 77 PRs while reviewing 39 over five months.

Web Developer / IT Intern | HTML, CSS, JavaScript, Ruby on Rails, GitLab

Nov 2025 – Present

University of Wisconsin – Eau Claire | Eau Claire, WI

- Own recurring updates across 3 university sites serving 12,000+ students, staff, and faculty, balancing accuracy, accessibility, and mobile-first usability.
- Shipped time-sensitive production updates to the JigsUp ice-fishing competition website, supporting event operations generating \$40,000+ in revenue.

Computer Science Teaching Assistant | Java

Sep 2024 – Dec 2024

University of Wisconsin – Eau Claire | Eau Claire, WI

- Assisted professor and 25 students in Intro to Programming in Java through lab sessions, assignment grading, office hours, and one-on-one debugging support.
- Explained programming fundamentals and debugging strategies in clear, beginner-friendly language to help students resolve errors independently.

UNDERGRADUATE RESEARCH

AI Research Assistant — Nursing Simulation | Python, LLMs, RAG, Ollama, Speech AI

Jun 2026 – Present

University of Wisconsin – Eau Claire | Eau Claire, WI

- Developed an interactive nursing simulation supporting typed and voice conversations using Python, Streamlit, Ollama, Faster-Whisper, Edge TTS, and WebRTC voice activity detection.
- Implemented streaming LLM generation and segmented text-to-speech, reducing median time-to-first-text response by 77.6%, from 2.96s to 0.55s.
- Built end-to-end latency instrumentation across speech recognition, LLM generation, and TTS playback, achieving 3.03s median end-of-speech-to-first-audio latency.

Undergraduate Research Assistant | Python, PyTorch/Ultralytics, YOLOv8, BDD100K

Dec 2025 – Present

University of Wisconsin – Eau Claire | Eau Claire, WI

- Fine-tuned a YOLOv8n road-object detector for 50 epochs on BDD100K, covering 10 road-scene object classes.
- Achieved 50.4% precision, 28.5% recall, 27.3% mAP@50, and 14.0% mAP@50–95 on the full-data baseline; achieved 38.3% mAP@50 in a matched-data experiment.
- Engineered a Python/Ultralytics pipeline for annotation conversion, dataset validation, class-imbalance experiments, and GPU training on a SLURM-based HPC cluster.

PROJECTS

Ordyn Life | Next.js, FastAPI, Docker, AWS, Cloudflare

Jun 2026 – Present

- Built a full-stack productivity platform with a unified activity-tracking system for workouts, running, LeetCode, reading, journaling, and GitHub commits, aggregating user data into progress, frequency, and consistency insights.
- Implemented CI/CD and production infrastructure using Docker, AWS S3/CloudFront, and Cloudflare to automate the path from development to deployment.

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL, C, Ruby, HTML/CSS

Frameworks & Databases: React, React Native, Next.js, FastAPI, Node.js, PostgreSQL, Supabase, SQLAlchemy

Cloud & DevOps: Docker, AWS S3, CloudFront, Cloudflare, GitHub Actions, GitLab CI/CD, EAS Build

ML/Data: YOLOv8, scikit-learn, Pandas, NumPy, XGBoost, PyTorch

EXTRACURRICULARS

Student Association for Computing Machinery (SACM) | Track & Field
